PRADEEP DEBNATH

Full Stack Developer | React, Node.js, TypeScript | Scalable Web Applications

+91-6290005151 | Kolkata – 700049 | debnath.pradeep619@gmail.com | Portfolio | GitHub | LinkedIn

SUMMARY

Full Stack Developer with **3+ years of experience** building scalable, high-performance web applications using **React, TypeScript** and **Node.js**. Expertise in performance optimization, complex UI workflows, and production-grade REST APIs. Experienced in **JWT-based authentication**, **media handling**, **cloud deployments** and real-time systems using **WebSockets**. Focused on delivering reliable, scalable, and user-centric product features.

SKILLS

Frontend: React, React Router, Redux/Context API, Next.js, Tailwind CSS, Material UI, Responsive & Mobile-First Design

Backend: Node.js, Express.js, REST APIs, Authentication & Authorization (JWT, Refresh Tokens), Middleware Design, API Testing, Rate Limiting

Programming Languages: SQL, JavaScript (ES6+), TypeScript, HTML5, CSS3

Databases: MySQL, MongoDB (NoSQL, Mongoose), PostgreSQL

ORM: Sequelize

Caching & Realtime: Redis, WebSockets

Cloud & Deployments: AWS (S3, EC2, Amplify), Docker, CI/CD pipelines

Development Practices: Agile (Scrum), SDLC

Tools: Postman, Swagger, GitHub

EXPERIENCE

Tech India *Kolkata, India*

Full Stack Developer Oct 2025 – Present

- Led development of **data-driven dashboards** and **complex UI workflows**, improving usability and performance.
- **Reduced re-renders** and **improved load time by almost 30%** using **memoization**, **lazy loading**, and **code splitting**.
- Developed reusable **custom React Hooks** for API calls and **state management,** improving code reusability.
- Implemented secure **JWT authentication** with **refresh tokens**, and **role-based access control (RBAC)**.
- Designed and optimized high-performance **REST APIs** using **Node.js**, **Sequelize**, and **MySQL**.
- **Optimized database queries** reducing **API response time by almost 25%** and **lowering latency**.
- Implemented **centralized error handling** and **logging middleware**, ensuring **consistent API responses** and easier debugging in production.
- Integrated **Google Maps SDK** for location search, geolocation features, and real-time map updates.

Microbase Infotech Pvt Ltd *Kolkata, India*

Full Stack Developer Apr 2024 – Sep 2025

- Developed web applications using **React** and **Node.js** for CRM and operations workflows.
- Improved **application performance** by **optimizing frontend rendering** and **backend API response time 20% faster**.
- Built **reusable React components and custom Hooks,** reducing **code duplication** and accelerating **development**.
- Used **Axios interceptors** to **centralize API request handling**, reducing duplicate API calls.
- Implemented **middleware-based validation** and authentication layers for secure backend services.
- Automated frontend deployment using **AWS Amplify** with **GitHub-based CI/CD integration**.
- Integrated **payment gateway** using **Stripe** for secure online transactions.
- Utilized **Swagger** for **API documentation** and **Postman** for testing and ensuring API functionality.

SAP Labs India *Bangalore, India*

Software Developer Jul 2017 – Dec 2017

- Developed **REST APIs** using **Node.js** and **Prisma ORM**, improving backend performance.
- Implemented **Redis caching** for frequently accessed data, improving performance during peak traffic.
- Built media upload and preview workflows using **AWS S3** integration.
- Containerized services using **Docker** for scalable deployments.

Onebill Software Pvt Ltd *Bangalore, India*

Software Developer Feb 2017 – Jun 2017

- Built **real-time data update systems** using **WebSockets** for dashboard visualizations and dynamic UI updates.
- Developed backend **APIs** with **Node.js** and **MongoDB** for scalable CRUD operations.
- Developed dynamic **PDF generation** services using **Puppeteer** and **Node.js**.

PROJECTS

LIMS – *Laboratory Management System* Oct 2025 – Present

- Developed and maintained a Laboratory Management System using **React (Vite)**, **Tailwind CSS** and **Node.js**, delivering responsive, high-performance user experiences across devices.
- Implemented scalable frontend **RBAC** using centralized **role-permission mapping**, **protected routes**, and conditional UI rendering, ensuring UX control alongside strict backend authorization enforcement.
- Implemented file upload workflows and automated email notifications using **Node.js**, **Multer**, **AWS S3**, and **Nodemailer**, streamlining candidate application processing.

ConnectCircle – *Social Networking Platform* Jan 2025 – Sep 2025

- Developed a scalable full-stack social networking application using **React**, **Node.js**, **PostgreSQL**, and **Prisma**.
- Implemented **user posts**, **club/user profiles**, **media uploads**, and **optimized feed** with efficient APIs and state management.
- Implemented **secure authentication** using **JWT** with **refresh tokens** for reliable session handling.
- Deployed frontend on **AWS Amplify**, backend on **EC2**, and used **S3** for media storage.

Sarthak Components – *CRM System* Aug 2024 – Dec 2024

- Developed **CRM platform** supporting order management, enquiry tracking and operational workflows.
- Implemented media uploads and optimized API queries for performance improvements.

Studionomy – *Studio Management Platform* Apr 2024 – Sep 2024

- Developed end-to-end management platform handling bookings, payments and invoice generation for studios.

EDUCATION

Guru Nanak Institute of Technology *Kolkata, India*

Bachelor of Technology (Electrical Engineering) 2012 – 2016

CERTIFICATIONS

- Advanced CSS and Sass (Udemy) Sep 2022
- SQL (QSpider) Jan 2016
